

Ways to Stop Global warming:

- Take the bus instead of your car.
- Turn off things when you're not there.
- Use Less electronics.

Hurricane Katrina

- Hurricane Katrina was the 8th deadliest hurricane in American history.
- It struck New Orleans in August 2005.
- The hurricane got stronger because the water was too hot in the Gulf of Mexico.

Energy

Two Renewable Energy Sources:

- Solar Power
- Wind Power

Renewable energy is better for the planet because it does not cause greenhouse gases.

Recycling

Processing used materials into new products.

3 Rs of Recycling are:

- REDUCE
- REUSE
- RECYCLE

What Can Your School Do to Save The Planet?

- You can save paper
- Turn off computers
- You can recycle
- Use solar energy
- Turn off lights
- Using less school buses
