

# The Big One

Global warming is the rise in temperature of Earth's atmosphere and oceans.

Fossil Fuels Are BAD!

This will Happen if we don't do anything about it!

# Matthew A. Falcon

## Energy

Wind Power and Solar Power are two forms of renewable energy that are better for the planet!

Recycling is a process of used materials into new products.

3rs of recycling are:

- Reduce
- Reuse
- Recycle

Let's Recycle: Cans, bottles, and paper.

# Mary Hooker

What Can Your School Do to Save The Planet?

We can use solar panels for electricity.

We can Recycle!
