

# Saving the Planet Sandra A. King

## Global Warming

Global warming is the continuing rise in the average temperature of Earth's atmosphere and oceans

Causes include:

- Deforestation
- Burning fossil fuels

## Hurricane Katrina

A deadly hurricane that hit New Orleans in august 2005.

The hurricane hit the gulf of Mexico since the water was too hot in the gulf hurricane it got stronger.

## Energy

Two forms of renewable energy are hydropower and wind power.

They do not cause any pollution and we can reuse it.

## Recycling

- Processing used materials into new products
- 3Rs: Reduce, Reuse, Recycle!
- Things we can recycle are plastic bottles, cans, and paper.

# Mary Hooker

Ways School can Help Save the Planet are:

- Turn off computers
- Turn off the faucet quickly
- Recycle ALL plastics and cardboard!
