

# Saving the Planet

# Josiah

## Global Warming

Global warming is the heating up of the earth. It is caused by smoking, cutting down trees, and pollution.

## Hurricane Katrina

One of the deadliest hurricanes in the history of the United States of America. It struck New Orleans, Louisiana in 2005.

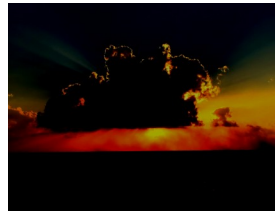

Hurricane Katrina got stronger after passing a hot patch of water in the Gulf Coast. The hot waters were caused by global warming.

## Energy

using water and sun forms energy.

It does not cause pollution and you can reuse them.

They are also natural forms of energy

## What Can Your School Do to Save The Planet?

My school can help save the planet by recycling and teaching the students about global warming.
