

Saving the Planet

Michelle

Global Warming

Global warming is when the Earth gets hotter. It is caused by the atmosphere getting thicker. Pollution causes this. We can help stop global warming by not using cars and recycling

Hurricane Katrina

What is Hurricane Katrina?
One of the most deadliest hurricane in the history of the U.S it hit New Orleans in 2005.

Hurricane Katrina got stronger after passing a hot patch of water were caused by Global Warming

Energy

Solar, water and wind power are three forms of renewable energy. They cause less pollution and are better for the environment

What Can Your School Do to Save The Planet?

[List ways that your school can slow down global warming and help save the planet]
